

WooCommerce Payment Gateway PayBy Plugin Overview

1 Description

WooCommerce plugin for user to purchase items using PayBy

1.1 Requirement

[1] Support AED for currency

The screenshot displays the WooCommerce Settings - General page. The left sidebar contains navigation links: Dashboard, Posts, Media, Pages, Comments, WooCommerce (highlighted), Dashboard, Orders, Coupons, Customers, Reports, Settings (highlighted), Status, Extensions, Products, Analytics, Marketing, Appearance, Plugins, Users, and Tools. The main content area shows the 'WooCommerce / Settings / General' breadcrumb at the top. Below it, there are sections for 'Enable taxes' (with a checkbox for 'Enable tax rates and calculations' and a note 'Rates will be configurable and taxes will be calculated during checkout.'), 'Enable coupons' (with a checked checkbox for 'Enable the use of coupon codes' and a note 'Coupons can be applied from the cart and checkout pages.', and an unchecked checkbox for 'Calculate coupon discounts sequentially' with a note 'When applying multiple coupons, apply the first coupon to the full price and the second coupon'), and 'Currency options' (highlighted with a red box). The 'Currency options' section includes a note 'The following options affect how prices are displayed on the frontend.' and a 'Currency' dropdown menu set to 'United Arab Emirates dirham (AED)'. Below this are 'Currency position' (set to 'Left'), 'Thousand separator' (set to ','), 'Decimal separator' (set to '.'), and 'Number of decimals' (set to '2'). A 'Save changes' button is at the bottom.

WooCommerce / Settings / General

Enable taxes ☐ Enable tax rates and calculations
Rates will be configurable and taxes will be calculated during checkout.
